ABRAMOVICH, F. and SILVERMAN, B. W. Wavelet decomposition approaches to statistical inverse problems 115

AHMAD, I. A. Testing whether a survival distribution is new better than used of an unknown specified age 451

AL-HARBEY, A. H. (See JONES, M. C.)

ANDREWS, D. W. K., LIU, X. and PLOBERGER, W. Tests for white noise against alternatives with both seasonal and nonseasonal serial correlation . . 727

BAGGERLY, K. A. Empirical likelihood as a goodness-of-fit measure . . . 535

BALAZS, I. (See ROEDER, K.)

BAR-HEN, A. and DAUDIN, J. J. Asymptotic distribution of Matusita's distance: Application to the location model. 477

BASU, A., HARRIS, I. R., HJORT, N. L. and JONES, M. C. Robust and efficient estimation by minimising a density power divergence 549

BERAN, J., BHANSALI, R. J. and OCKER, D. On unified model selection for stationary and nonstationary short- and long-memory autoregressive processes 921

BERGER, J. O. (See SUN, D.)

BHANSALI, R. J. (See BERAN, J.)

BORTOT, P. and TAWN, J. A. Models for the extremes of Markov chains . . 851

BOWMAN, A., HALL, P. and PRVAN, T. Bandwidth selection for the smoothing of distribution functions 799

BROWN, B. M. and COWLING, A. Clustering and abundance estimation for Neyman–Scott models and line transect surveys 427

CAI, Z., HURVICH, C. M. and TSAI, C. L. Score tests for heteroscedasticity in wavelet regression 229

CATCHPOLE, E. A., MORGAN, B. J. T. and FREEMAN, S. N. Estimation in parameter-redundant models 462

CHAN, K. S. and TSAY, R. S. Limiting properties of the least squares estimator of a continuous threshold autoregressive model 413

CHEN, M.-H. and SHAO, Q.-M. Monte Carlo methods for Bayesian analysis of constrained parameter problems 73

CHEN, Y. (See ZHAO, L. P.)

CHENG, C.-S. Some hidden projection properties of orthogonal arrays with strength three 491

CHIB, S. and GREENBERG, E. Analysis of multivariate probit models . . . 347

CHOI, E. and HALL, P. On bias reduction in local linear smoothing . . . 333

CHUANG, C.-S. and LAI, T. L. Resampling methods for confidence intervals in group sequential trials 317

CLYDE, M., PARMIGIANI G. and VIDAKOVIC, B. Multiple shrinkage and subset selection in wavelets 391

COOLEY, C. A. and MACEACHERN, S. N. Classification via kernel product estimators 823

CORCORAN, S. A. Bartlett adjustment of empirical discrepancy statistics . . 967
COWLING A. (See BROWN, B. M.)
CROWLEY, J. (See TSAI, W.-Y.)
DAUDIN, J. J. (See BAR-HEN, A.)
DAVIES, S. J. (See LUNN, A. D.)
DAWID, A. P. and MORTERA, J. Forensic identification with imperfect evidence . 835
DENISON, D. G. T., MALLICK, B. K. and SMITH, A. F. M. A Bayesian CART algorithm 363
DETTE, H. and WONG, W. K. Bayesian *D*-optimal designs on a fixed number of design points for heteroscedastic polynomial models 869
DEVILLE, J.-C. and TILLÉ, Y. Unequal probability sampling without replacement through a splitting method 89
DIDELEZ, V. and PIGEOT, I. Maximum likelihood estimation in graphical models with missing values 960
DROGE, B. Minimax regret analysis of orthogonal series regression estimation: Selection versus shrinkage 631
ECCLESTON, J. A. (See MARTIN, R. J.)
ESCOBAR, M. (See ROEDER, K.)
FADDY, M. J. and JONES, M. C. Semiparametric smoothing for discrete data 131
FAHRMEIR, L. and KLINGER, A. A nonparametric multiplicative hazard model for event history analysis 581
FAN, J. and YAO, Q. Efficient estimation of conditional variance functions in stochastic regression 645
FINE, J. P., YING, Z. and WEI, L. J. On the linear transformation model for censored data 980
FLEHINGER, B. J., REISER B. and YASHCHIN, E. Survival with competing risks and masked causes of failures 151
FOSTER, D. P. and VOHRA, R. V. Asymptotic calibration 379
FREEMAN, S. N. (See CATCHPOLE, E. A.)
FUNG, W.-K. (See SHI, P.)
GABRIEL, K. R. Generalised bilinear regression 689
GAMERMAN, D. Markov chain Monte Carlo for dynamic generalised linear models 215
GASTWIRTH, J. L., KRIEGER, A. M. and ROSENBAUM, P. R. Dual and simultaneous sensitivity analysis for matched pairs 907
GELFAND, A. E. and GHOSH, S. K. Model choice: A minimum posterior predictive loss approach 1
GHOSH, S. K. (See GELFAND, A. E.)
GOLDSTEIN, M. and WOOFF, D. A. Adjusting exchangeable beliefs 39
GOODALL, C. R. (See MARDIA, K. V.)
GOUTIS, C. and ROBERT, C. P. Model choice in generalised linear models: A Bayesian approach via Kullback–Leibler projections 29
GREENBERG, E. (See CHIB, S.)
HALL, P., PARK, B. U. and TURLACH, B. A. A note on design transformation and binning in nonparametric curve estimation 469
HALL, P. (See BOWMAN, A.)
HALL, P. (See CHOI, E.)
HARRINGTON, D. P. (See TROXEL, A. B.)
HARRIS, I. R. (See BASU, A.)

HEYDE, C. C. and MORTON, R. Multiple roots in general estimating equations 954
HJORT, N. L. (See BASU, A.)
HOGAN, J. W. (See YAO, Q.)
HOLTE, S. (See ZHAO, L. P.)
HOOVER, D. R., RICE, J. A., WU, C. O. and YANG, L.-P. Nonparametric smoothing estimates of time-varying coefficient models with longitudinal data . . . 809
HSU, L. (See ZHAO, L. P.)
HU, I. On sequential designs in nonlinear problems 496
HUANG, Y. and LOUIS, T. A. Nonparametric estimation of the joint distribution of survival time and mark variables 785
HUBBARD, A. E. (See LAAN, M. J. VAN DER)
HURVICH, C. M. and TSAI, C.-L. A crossvalidatory AIC for hard wavelet thresholding in spatially adaptive function estimation 701
HURVICH, C. M. (See CAI, Z.)
ICKSTADT, K. (See WOLPERT, R. L.)
JONES, M. C., SAMIUDDIN M., AL-HARBEY, A. H. and MAATOUK, T. A. H. The edge frequency polygon 235
JONES, M. C. (See BASU, A.)
JONES, M. C. (See FADDY, M. J.)
KADANE, J. B. (See ROEDER, K.)
KARAKOSTAS, K. X. (See PAPAGEORGIOU, I.)
KENT, J. T. (See MARDIA, K. V.)
KIM, J. and LEE, S.-Y. Two-sample goodness-of-fit tests for additive risk models with censored observations 593
KLINGER, A. (See FAHRMEIR, L.)
KRIEGER, A. M. (See GASTWIRTH, J. L.)
LAAN, M. J. VAN DER and HUBBARD, A. E. Locally efficient estimation of the survival distribution with right-censored data and covariates when collection of data is delayed 771
LAI, T. L. (See CHUANG, C.-S.)
LAM, K. F. A class of tests for the quality of k cause-specific hazard rates in a competing risks model 179
LAWLESS, J. F. (See NADEAU, C.)
LAZAR, N. and MYKLAND, P. A. An evaluation of the power and conditionality properties of empirical likelihood 523
LEE, S.-Y. (See KIM, J.)
LI, B. An optimal estimating equation based on the first three cumulants . . 103
LIEBERMAN, O. From unbiased linear estimating equations to unbiased estimators 244
LIN, D. Y., OAKES, D. and YING, Z. Additive hazards regression with current status data 289
LIN, D. Y., WEI, L. J. and YING, Z. Accelerated failure time models for counting processes 605
LIPSITZ, S. R. (See TROXEL, A. B.)
LITTLE, J. A. (See MARDIA, K. V.)
LIU, C. Information matrix computation from conditional information via normal approximation 973
LIU, C. and RUBIN, D. B. Ellipsoidally symmetric extensions of the general location model for mixed categorical and continuous data 673

LIU, C., RUBIN, D. B. and WU, Y. N. Parameter expansion to accelerate EM: The PX-EM algorithm 755
LIU, X. (See ANDREWS, D. W. K.)
LOUIS, T. A. (See HUANG, Y.)
LUNN, A. D. and DAVIES, S. J. A note on generating correlated binary variables 487
MAATOUK, T. A. H. (See JONES, M. C.)
MACEACHERN, S. N. (See COOLEY, C. A.)
MALLICK, B. K. (See DENISON, D. G. T.)
MARDIA, K. V., KENT, J. T., GOODALL, C. R. and LITTLE, J. A. Amendments and Corrections to: Kriging and splines with derivative information. *Biometrika* (1996), **83**, pp. 207–221 505
MARTIN, R. J. and ECCLESTON, J. A. Variance-balanced change-over designs for dependent observations 883
MORGAN, B. J. T. (See CATCHPOLE, E. A.)
MORTERA, J. (See DAWID, A. P.)
MORTON, R. (See HEYDE, C. C.)
MYKLAND, P. A. (See LAZAR, N.)
NADEAU, C. and LAWLESS, J F. Inference for means and covariances of point processes through estimating functions 893
OAKES, D. (See LIN, D. Y.)
OCKER, D. (See BERAN, J.)
OMAN, S. D. Calibration with random slopes 439
O'QUIGLEY, J. and REINER, E. A stopping rule for the continual reassessment method 741
ORME, C. D. On the insensitivity of the score test for heterogeneity to omitted covariates in multivariate failure time models 457
OZAKI, T. (See SHOJI, I.)
PAPAGEORGIOU, I. and KARAKOSTAS, K. X. On optimal sampling designs for auto-correlated finite populations 482
PARK, B. U. (See HALL, P.)
PARMIGIANI, G. (See CLYDE, M.)
PAULER, D. K. The Schwarz criterion and related methods for normal linear models 13
PIGEOT, I. (See DIDELEZ, V.)
PLOBERGER, W. (See ANDREWS, D. W. K.)
PRENTICE, R. L. (See ZHAO, L. P.)
PRVAN, T. (See BOWMAN, A.)
QIN, J. Inferences for case-control and semiparametric two-sample density ratio models 619
QUIAOIT, F. (See ZHAO, L. P.)
REINER, E. (See O'QUIGLEY, J.)
REISER, B. (See FLEHINGER, B. J.)
RICE, J. A. (See HOOVER, D. R.)
ROBERT, C. P. (See GOUTIS, C.)
ROBINS, J. M. (See WANG, N.)
ROEDER, K., ESCOBAR, M., KADANE, J. B. and BALAZS, I. Measuring heterogeneity in forensic databases using hierarchical Bayes models 269
ROSENBAUM, P. R. (See GASTWIRTH, J. L.)

ROVERATO A. and WHITTAKER, J. The Isserlis matrix and its application to non-decomposable graphical Gaussian models 711
RUBIN, D. B. (See LIU, C.)
SAMIUDDIN, M. (See JONES, M. C.)
SEVERINI, T. A. An approximation to the modified profile likelihood function 403
SEVERINI, T. A. Likelihood functions for inference in the presence of a nuisance parameter 507
SHAO, Q.-M. (See CHEN, M.-H.)
SHEN, X. Proportional odds regression and sieve maximum likelihood estimation 165
SHI, P. and FUNG, W.-K. A note on transforming a response variable for linearity 749
SHIH, J. H. A goodness-of-fit test for association in a bivariate survival model . 189
SHOJI, I. and OZAKI, T. A statistical method of estimation and simulation for systems of stochastic differential equations 240
SILVERMAN, B. W. (See ABRAMOVICH, F.)
SMITH, A. F. M. (See DENISON, D. G. T.)
STOFFER, D. S. and TYLER, D. E. Matching sequences: Cross-spectral analysis of categorical time series 201
SUN, D. and BERGER, J. O. Reference priors with partial information . . . 55
TAWN, J. A. (See BORTOT, P.)
TILLÉ, Y. (See DEVILLE, J.-C.)
TROXEL, A. B., LIPSITZ, S. R. and HARRINGTON, D. P. Marginal models for the analysis of longitudinal measurements with nonignorable non-monotone missing data 661
TSAI, C.-L. (See CAI, Z.)
TSAI, C.-L. (See HURVICH, C. M.)
TSAI W.-Y. and CROWLEY, J. A note on nonparametric estimators of the bivariate survival function under univariate censoring 573
TSAY, R. S. (See CHAN, K. S.)
TURLACH, B. A. (See HALL, P.)
TYLER, D. E. (See STOFFER, D. S.)
VIDAKOVIC, B. (See CLYDE, M.)
VIDONI, P. A note on modified estimative prediction limits and distributions 949
VOHRA, R. V. (See FOSTER, D. P.)
WANG, N. and ROBINS, J. M. Large-sample theory for parametric multiple imputation procedures 935
WANG, W. and WELLS, M. T. Nonparametric estimation of successive duration times under dependent censoring 561
WEI, L. J. (See FINE, J. P.)
WEI, L. J. (See LIN, D. Y.)
WEI, L. J. (See YAO, Q.)
